Encourage your staff to quit smoking on National No Smoking Day

Studies have consistently shown the positive influence of a healthy workforce on a company's success. Reduced absences, lower staff turnover, and a more productive environment are all directly linked to employee wellbeing. Quitting smoking is the best thing your staff can do to improve their health.

Why not encourage your staff to make a quit attempt on National No Smoking Day – Wednesday 11 March.

Lots of support is available to help your employees quit smoking via the Smoke Free app or from our Health Coaches. We have printed resources available that can be sent to you ahead of National No Smoking Day promoting the support available to your employees – including poster, flyers and business sized cards with a QR code and web address that link to our Smokefree Wiltshire

landing page where they will find information about the Smoke Free app and our Health Coaches.

To request Smokefree resources visit [Wiltshire Tobacco Alliance - Wiltshire Council](#) or get in touch with the Workplace Health Coach team either by email publichealth@wiltshire.gov.uk or call 0300 003 4566.
